Infertility Specialist & Laproscopic Surgeon

Reg. No.: 2008/04/09/05

TO WHOM SO EVER IT MAY CONCERN

10/09/2025

This is to certify that Anaya Janwadkar , a 9th grade student, successfully completed an internship at Ashish Maternity and Nursing Home from June 1 to July 7, 2023.

During her internship, Anaya was introduced to both the clinical and administrative aspects of women's healthcare. She observed the professional responsibilities of the gynaecologist and medical staff, including patient consultations, routine examinations, and the careful handling of medical records.

Her role was primarily observational; however, she also assisted with key administrative tasks such as filing documents, organising patient charts, and preparing examination rooms. Through these activities, Anaya gained insight into how healthcare facilities coordinate scheduling, manage patient flow, and balance the clinical and administrative needs of the patient and providers.

This experience exposed her to the importance of confidentiality, professionalism, and effective communication in a medical setting. She learned how teamwork between doctors, nurses, and administrative staff is essential for ensuring efficiency, accuracy, and high-quality patient care. She also developed valuable workplace skills such as organisation, time management, and responsibility- skills fundamental to healthcare management.

Anaya's internship at Ashish Maternity and Nursing Home not only strengthened her interest in the medical field but also gave her a greater appreciation of how healthcare management supports patient well-being. She demonstrated enthusiasm, adaptability, and a keen willingness to learn throughout her time with us.

We wish her continued success in her future academic and professional endeavors.

Sincerely,

Dr. Amish R. Doshi
